October 15, 2015

The Honorable Robert McDonald  
Secretary  
Department of Veterans Affairs  
810 Vermont Avenue, NW  
Washington, D.C. 20420

Dear Secretary McDonald,

I was surprised to learn through media reports today that Skye McDougall, the acting director of the Desert Pacific Healthcare Network in California, has been named director of the Southwest Health Care Network. In her new capacity, Ms. McDougall will oversee the Phoenix VA and other hospitals across Arizona and be responsible for ensuring that veterans across the Southwest receive the medical care they need.<sup>1</sup> However, based on reports that Ms. McDougall purposely misled Congress regarding wait times for veterans in Southern California, I am extremely concerned by this appointment. I believe that this selection does nothing to regain veterans' confidence that the VA has been reformed in the aftermath of the tragic scandal during which veterans died waiting for care while senior VA executives collected monetary bonuses.

As the Phoenix VA Health Care System was ground zero for that scandal, the veterans in my state deserve better than to have a director who misled Congress about patient wait times or understated the severity of the VA's failures. Further, while Ms. McDougall appears to have extensive experience in research and as part of the VA bureaucracy, our veterans deserve to have a leader who understands patient care and knows how to improve it.

Given that the VA is still working to earn back the trust of veterans it betrayed from last year's scandal and its own employees who have lost faith in the integrity of their senior leaders, I urge you to reconsider this selection.

Thank you for your timely response to this letter.

Sincerely,  
  
John McCain  
United States Senator
