Dear VA Director Gardner:

Please explain the VA letter of 3/31/15, where, again, my medicine is withheld and I am made to appear responsible. The justification in the letter is that I don't have a telephone, as if the telephone were the only means of communicating.

Question 1: Is it your position that the telephone is the only acceptable means of communication? Do you not accept postal mail, email, and the VA's secure messaging system, as acceptable means of communication? If so, why?

Note: I removed my telephone around 2004(?) to try to get Dr. Kathleen Gibson to communicate with me in writing. I could not get her to take accountable positions. She would not answer basic questions such as "Are you my primary care provider?", or "What is it in the computer system that prevents my medicine from being released?"

Question 2: Was Dr. Kathleen Gibson ever my primary care provider? Please give a "yes" or a "no".

Question 3: Does the 3/31/15 blood test show that I have lupus? Please give a "yes" or a "no".

Question 4: Why can't I see Dermatologist? I have a personal and family history of melanoma. We operated in agent orange defoliated areas in Vietnam. <http://tucsonva.com> <http://tucsonva.com/links2/pages/A-1.htm> (photos 44 - 48)

Question 5: Why do you refuse to remove my Power of Attorney and Living Will from the VA records and make it appear as my fault? What is your intent?

Would you take an accountable position?

Sincerely, Anthony OConnell 7637

"Request for Information" letter from an unknown sender post marked June 9, 2015

Dear Director Gardner,

I received your certified letter post marked June 10, 2015.

I also received a "Request for Information" letter from an unknown sender post marked June 9, 2015, that begs questions. Please see the attachment "unknown-sender12p"

- (1) Why this "Request for Information" from an unidentified sender about unidentified programs now?
- (2) Why the "If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits"? What "application"? What "benefits"? What are " . . . the programs for which you have applied"? Please send me copies.
- (3) Why the "You must give us the information no later than 06/18/2015"?
- (4) This request was mailed to me on 06/09/2015. Your certified letter to me was mailed on 06//10/2015. Is this a coincidence? Who is the sender of the "Request for Information"?
- (5) Is this intended to stop my VA poverty pension of \$507.00 per month and make it appear as my fault? If so this would reduce my annual income from \$12,876.00 to \$6,792.00.

Sincerely,

Anthony OConnell 7637

I believe this "Request for Information" VA(?) letter is one of the the most sophisticated and comprehensive setups I've experienced.

Dear Secretary of Veterans Affairs Robert McDonald:

Please listen. I believe the attached letter plants a lot of confusion and is intended to cover over a set up to takeaway my 2012 poverty pension and make it appear as my fault. If this is done my annual income drops from \$12,876 to \$6,084 and I'm dead.

Please see the two attachments. I only have only one benefit outstanding and that is the VA poverty pension that I've had since 2012. The only qualifications for a veteran to qualify for that is that they be over 65 and have an income below the poverty line. It is supposed to be automatic. It is not supposed to be adjudicated. I am still below the poverty line and am still over 65.

I have no applications outstanding in the Arizona Department of Economic Security (DES) or the Arizona Health Care Cost Containment System (AHCCCS). If whoever sent this letter believes I do please have them send me a copy. Anything to do with DES or AHCCCS is irrelevant. I can't think of anything relevant in this letter unless it is a set up.

If I were an investigative journalist I would ask Director Jonathan Gardner questions such as this. Because the reader doesn't know what the question is leading to the questions seem unimportant.

- (1) Why this "Request for Information" letter now?
- (2) Why "If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits"? What "application"? What "benefits"? What are " . . . the programs for which you have applied"? Please send me copies.
- (3) Why "You must give us the information no later than 06/18/2015"?
- (4) This request from an unknown sender was mailed to me on 06/09/2015. Director Jonathan Gardner's certified letter to me was mailed on 06//10/2015. Is this a coincidence? Who is the sender? What is the sender's intent?

Thank you.

Dear VA Director Gardner;

Would you please explain the "Request for Information" letter dated June 3, 2015? A copy is attached.

- (1) Who sent this letter?
- (2) What triggered it?
- (3) Why the avalanche of confusion and misinformation?
- (4) Why the false statements on page 2 under "We need to verify ..." ?
- (5) Why would the VA not know that the only benefit I receive is the economic pension for veterans over 65 who live under the poverty line and that I have no applications outstanding? The confusion and misinformation covers this up.
- (6) Why am I being made to appear responsible?
- (7) Why the "You must give us the information no later than 06/18/2015"?
- (8) Why the "If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits"?
- (9) Is this letter a set up to takeaway my VA economic pension and make it appear as my fault?

Why won't you allow me to get my 2003 Power of Attorney and Living Will out of the VA system? What is your intent?

I use Lorazepam for atrial fibrillations. My past prescription was for 4 fills with 60 tablets per fill or 240 tablets total (2012, RX# 1964138A). Why can't I get more than 17 tablets total now?

Please don't stop my tamsulosin. See attachment

Why the continued discrepancy between the number of fills stated on the medicine bottles and the number of fills I actually receive? I receive one less fill than it says on the bottle. The number of fills I actually receive matches the number of fills shown on the VA website <http://www.myhealth.va.gov>

Dear VA Director Jonathan Gardner;

The "Request for Information" letter I received dated June 3, 2015, is full of confusion, misinformation, unrealistic requirements, and threats of changing or stopping my benefits:

"Dear Anthony OConnell,

We need the information listed below to decide if you can qualify for the programs for which you have applied. Contact us if you have trouble getting the information we are requesting. We may be able to help. You must give us this information no later than 06/18/2015. There are several ways for you to give us the information we are asking for below:

1. Log in to your Health-e-Arizona Plus account at 'www.healtharizonaplus.gov' to scan, upload, or email information. OR
2. Fax your information using the attached fax coversheet to 1-888-372-8777. The fax coversheet has a barcode that identifies your case. OR
3. Mail your information to: AHCCCS. 801 E. Jefferson Street. MD 3800, Phoenix, AZ 85034

If you cannot get this information to us by the due date you may be able to get more time. You can request more time by calling the number above.

If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits."

Please tell me why you think I receive any benefits other than social security and the automatic, non-adjudicated, VA economic pension for veterans over 65 who live under the poverty line. If you think I receive any other benefit or have any application pending please show me the evidence.

I believe this letter is a set up to take away my VA economic pension because that is the only benefit I receive besides social security and there is a pattern of disempowering me. This would reduce my annual income from \$12,876 to \$6,792.

Why won't you allow me to get my 2003 Power of Attorney and Living Will out of the VA system? Why the extreme avoidance of accountability?

Why the continued discrepancy between the number of medicine fills stated on my medicine bottles and the number of fills I actually receive? I receive one less fill than it says on the bottle. The number of fills I actually receive matches the number of fills shown on the VA website <http://www.myhealth.va.gov>. Between this and my medicine being stopped I believe I have received only about 75% - 80% of the medicine I should have received. Can we look at the empirical evidence of medicine trails and see?

- (2) What triggered the letter? Why now?.
- (3) Why the false statements on page 2 under "We need to verify ..." ?

- (5) Why the "If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits"?

(6) The confusion and misinformation in this letter is over whelming. Why would anyone who has access to records not know that the only benefit I receive is the automatic, non-adjudicated, economic pension for veterans over 65 who live under the poverty line and that I have no applications outstanding?

(7) Why am I being made to appear responsible for this confusion and misinformation created by an unknown sender?

(a) Is the intent to take away my VA economic pension and make it appear as my fault? This would drop my income from \$12,876 to \$6,792. If so I'm dead. What is the intent of this letter?

(b) Is the intent to take control of my home with a lien or something?

Why won't you allow me to get my 2003 Power of Attorney and Living Will out of the VA system? What is your intent?

Why the continued discrepancy between the number of fills stated on my medicine bottles and the number of fills I actually receive? I receive one less fill than it says on the bottle. The number of fills I actually receive matches the number of fills shown on the VA website <http://www.myhealth.va.gov>

Would you take an accountable position?

Thank you,

Anthony OConnell 7637

Dear Director of Arizona Department of Economic Security (DES) Timothy Jeffries;

The attached "Request for Information" letter dated June 3, 2015, is full of confusion, misinformation, unrealistic requirements, threats of changing or stopping my benefits, and makes me appear responsible. Please judge for yourself, does this letter frame me?

Would you, and you alone, please respond in writing to the following questions? This would make you accountable. And not your staff, an ~~advocate~~, the telephone, etc..

(1) Who is the sender? Who is accountable?

(2) What triggered the letter? Why now?

(3) Why the false statements on page 2 under "We need to verify ..." ?

(4) Why the "You must give us the information no later than 06/18/2015"?

(5) Why the "If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits"?

(6) Why am I being made to appear responsible?

(7) Why would anyone who has access to records not know that I have no applications outstanding and the only benefit I receive is the automatic, non-adjudicated, VA economic pension for veterans over 65 who live under the poverty line?

(8) What is the intent? Is the intent to take away my VA economic [poverty] pension? This would reduce my annual income from \$12,876 to \$6,792. Is the intent to take control of my home with a lien or something similar to the takeover of my farm in Virginia? <http://www.unknownlien.com> Or both?

(9) If this letter is from the State of Arizona does this mean the State of Arizona will treat me this way from now on?

Sincerely,

Anthony OConnell

Dear VA Director Jonathan Gardner;

The "Request for Information" letter I received dated June 3, 2015, is full of confusion, misinformation, unrealistic requirements, and threats of changing or stopping my benefits:

"Dear Anthony OConnell,

We need the information listed below to decide if you can qualify for the programs for which you have applied. Contact us if you have trouble getting the information we are requesting. We may be able to help. You must give us this information no later than 06/18/2015. There are several ways for you to give us the information we are asking for below:

If you cannot get this information to us by the due date you may be able to get more time. You can request more time by calling the number above.

If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits."

Please tell me why you think I receive any benefits other than social security and the automatic, non-adjudicated, VA economic pension for veterans over 65 who live under the poverty line. If you think I receive any other benefit or have any application pending please show me the evidence.

I believe this letter is a set up to take away my VA economic pension because that is the only benefit I receive besides social security and there is a pattern of disempowering me. This would reduce my annual income from \$12,876 to \$6,792.

Why won't you allow me to get my 2003 Power of Attorney and Living Will out of the VA system? Why the extreme avoidance of accountability?

Why the continued discrepancy between the number of medicine fills stated on my medicine bottles and the number of fills I actually receive? I receive one less fill than it says on the bottle. The number of fills I actually receive matches the number of fills shown on the VA website <http://www.myhealth.va.gov>. Between this and my medicine being stopped I believe I have received only about 75% - 80% of the medicine I should have received. Can we look at the empirical evidence of medicine trails and see?

Dear Tucson VA Director Jonathan Gardner;

The "Request for Information" letter I received dated June 3, 2015, is full of confusion, misinformation, unrealistic requirements, and threats of changing or stopping my benefits:

Please tell me why you think I receive any benefits other than social security and the VA economic pension for veterans who live under the poverty line. By law this VA economic pension is automatic and not adjudicated for veterans over 65. If you think I receive any other benefit or have any application pending please show me the evidence.

Why was the "Request for Information" letter introduced? Why is it shrouded in secrecy? Why am I made responsible for it? Why is there no sender's name? Why do you refuse to answer?

The impenetrable secrecy forces me to guess the intent. I believe this letter is a set up to take away my VA economic pension because that is the only benefit I receive besides social security and there is a pattern of disempowering me. This would reduce my annual income from \$12,876 to \$6,792. If this is not the intent what is?

- Why is my medicine repeatedly stopped? Why the continued discrepancy between the number of medicine fills stated on my medicine bottles and the number of fills I actually receive? I receive one less fill than it says on the bottle.
- Why is it impossible to expose the empirical data of the actual medicine trails? I'm guessing that I have only received 75% - 80% of what I should have.
- Why do you refuse to release my 2003 Power of Attorney and Living Will from the VA system
- Why the extreme avoidance of accountability?
- Why is it so important to you to disempower me?

Sincerely, Anthony OConnell 7637

Dear Tucson VA Director Jonathan Gardner;

The "Request for Information" letter I received dated June 3, 2015, is full of confusion, misinformation, unrealistic requirements, and threats of changing or stopping my benefits:

"Dear Anthony OConnell,

We need the information listed below to decide if you can qualify for the programs for which you have applied. Contact us if you have trouble getting the information we are requesting. We may be able to help. You must give us this information no later than 06/18/2015. There are several ways for you to give us the information we are asking for below:

1. Log in to your Health-e-Arizona Plus account at 'www.healtharizonaplus.gov' to scan, upload, or email information. OR
2. Fax your information using the attached fax coversheet to 1-888-372-8777. The fax coversheet has a barcode that identifies your case. OR
3. Mail your information to: AHCCCS, 801 E. Jefferson Street, MD 3800, Phoenix, AZ 85034

If you cannot get this information to us by the due date you may be able to get more time. You can request more time by calling the number above.

If we do not get the information and we do not hear from you, we will deny your application or stop/change your benefits."

(Unknown sender to Anthony OConnell)

Please tell me why you think I receive any benefits other than social security and the VA economic pension for veterans who live under the poverty line. By law this VA economic pension is automatic and not adjudicated for veterans over 65. If you think I receive any other benefit or have any application pending please show me the evidence.

History suggests that this "Request for Information" letter is a set up to stop my VA economic pension and make it appear as my fault. This would drop my annual income from \$12,876 to \$6,792.

Why the continued discrepancy between the number of medicine fills stated on my medicine bottles and the number of fills I actually receive? I receive one less fill than it says on the bottle.

Why do you refuse to release my 2003 Power of Attorney and Living Will from the VA system and make it appear as my fault? What level of accountability do you accept?

Sincerely, Anthony OConnell
