

# Postal Mail

In 2010, 2011, and 2012, the Tucson pharmacy communicated with me using postal mail (regular mail)..

If I was made to appear at fault for not getting my medicine in 2013 by my not having a telephone, why wasn't postal mail used as it was in 2010, 2011, and 2012 when I did not have a telephone?

S: I could not call patient as patient does not have a phone. Emergency contact number (Susan Perry) is disconnected I did email patient earlier today and asked him to call me, but so far I have not received a call back. Per record, patient is currently taking the following warfarin dose: 4.5mg on Fri and 3mg all the other days.

O: Warfarin indication: artificial heart valve. with goal INR: 2.5-3.5

PT/INR Coll. date	PT	INR
9/1/11 08:23	41.9 H	4.0 H
7/28/11 13:44	37.2 H	3.4 H

Mr. O'Connell,

I am writing in regard to your warfarin/anticoagulation management. As you have likely already heard, unfortunately the pharmacists in our Anticoagulation Clinic do not have access to Secure Messaging. Because I work with Green Valley in a different capacity, I do have access to Secure Messaging. I was asked by the Anticoagulation Clinic Pharmacist, Marjorie Ford, to send you a message to request that you contact her at your earliest convenience. She would like to work with you to find a solution for your warfarin management. If you can get access to a phone, she can be reached at 520-792-1450, extension 4598.
