To: "Rindone, Joseph P." <Joseph.Rindone@va.gov>

Joe Rindone,

I'm readjusting to warfarin. I took none before January 19, 10mg on Jan 19, 10mg on Jan 20, and 3mg on Jan 21. I'm scheduled for, and will do, a blood draw at the Tucson VA on January 23 and at the Green Valley clinic on January 29

My stay at the VA Tucson hospital was wonderful; the people were great; they cured me of my previous anxiety about that environment.

Hi Joe,

I had a blood draw at the GV out patient clinic on January 29, 2013.

I understand you will email Randi Schmeling and make the next appointment?

Thanks again.

Joe,

Am I correct that I should take both treatments: (1) the injections and (2) the 6 mg of Warfarin per day for two more days?

Anthony OConnell 7637

Rindone, Joseph P. <Joseph.Rindone@va.gov>
To: Anthony OConnell <anthonymineroconnell@gmail.com>

Fri, Mar 22, 2013 at 9:37 AM

Yes, that is right The dose of the injection is 100 mg (one syringe) every 12 hours for 8 doses, take along with the warfarin thanks

Joe Rindone,

I understand my monitoring is to be taken over by the Tucson VA.

Thank you for going through all those complications as long as you did.

Happy Easter.

Anthony O'Connell <anthonymineroconnell@gmail.com>

New INR monitoring plan?

3/26/2013

Anthony O'Connell <anthonymineroconnell@gmail.com>
 To: "Rindone, Joseph P." <Joseph.Rindone@va.gov>

Wed, Apr 10, 2013 at 8:11 AM

Joe,

If I understand my primary care provider Randi Schmeling in Green Valley correctly, there is a new plan for monitoring my INR: I get my blood drawn at the Tucson VA, you do the work order and tell me when to go, and monitor me. Is this correct?

If so, that would be great. If so, when do I go next?

Anthony O'Connell 7637

Joe,

Thanks for responding so quickly. The only thing I heard from the Tucson VA monitoring people was:

"Mr. O'Connell,

I am writing in regard to your warfarin/anticoagulation management. As you have likely already heard, unfortunately the pharmacists in our Anticoagulation Clinic do not have access to Secure Messaging. Because I work with Green Valley in a different capacity, I do have access to Secure Messaging. I was asked by the Anticoagulation Clinic Pharmacist, Marjorie Ford, to send you a message to request that you contact her at your earliest convenience. She would like to work with you to find a solution for your warfarin management. If you can get access to a phone, she can be reached at 520-792-1450, extension 4598.

Eric Van Hoesen, Pharm.D.
 Clinical Pharmacist"

I don't understand:

- (1) Why the pharmacists in the Tucson Anticoagulation Clinic would not have access to Secure Messaging.
- (2) Why the Tucson Anticoagulation Clinic would not send me a letter of the results like they did several years ago. If they didn't need me to have a telephone then, why do they need me to have a telephone now? Is their a rule that the veteran has to have a telephone in order to get monitored at the Tucson VA?
- (3) Why my warfarin management would be treated any differently from any other veteran living in Green Valley (Reference: "She would like to work with you to find a solution for your warfarin management")

(4) Why it would be a surprise that I don't have a telephone. I talked to Marjorie Ford in person several years ago and told her I didn't have a telephone, and gave that no phone information to the Tucson VA multiple times over the years.

(5) Why my primary care provider Randi Schmeling would tell me you were going to monitor me when you don't know anything about it.

Joe, would you please monitor me? You make things work.
